Prajwal Pachpande

Navi Mumbai, Maharashtra | 9284709569 | prajwalpachpande2@gmail.com | linkedin.com/in/prajwalpachpande2310

PROFESSIONAL SUMMARY

Entry-level software developer with an Electronics and Telecommunication Engineering background and postgraduate training at CDAC Kharghar. Knowledge of Java, C++, SQL/MySQL, data structures, object-oriented programming, and database programming. Also experienced in system testing, network protocol configuration, and web development internships. Interested in software development and backend-oriented roles.

TECHNICAL SKILLS

Programming Languages: Java, C++, C

Database: SQL, MySQL; joins, subqueries, views, stored procedures, functions, triggers, cursors, transactions, window functions

Data Structures and Algorithms: Arrays, linked lists, stacks, queues, trees, binary search trees, hashing, graphs; searching and sorting algorithms; Big-O analysis

Java Concepts: Object-oriented programming, collections, exception handling, file handling, lambda expressions, functional interfaces, Stream API

C++ Concepts: Pointers, dynamic memory allocation, copy/move semantics, smart pointers, operator overloading, STL

Web Technologies: HTML, CSS, JavaScript

Tools and Libraries: GitHub, Python, Pandas, scikit-learn, embedded systems

EDUCATION

Centre for Development of Advanced Computing (CDAC), Kharghar | 2026 – Present
Post Graduate Certificate/Diploma – PGCP-AC

Lokmanya Tilak College of Engineering, Navi Mumbai | Jul 2022 – May 2026
B.E. – Electronics and Telecommunication Engineering, University of Mumbai

Mahatma Gandhi College, Varangaon | Jun 2021 – Mar 2022
Higher Secondary Certificate (HSC) | 76.3%

G. S. Chaudhary School, Varangaon | Jun 2019 – Mar 2020
Secondary School Certificate (SSC) | 88.20%

EXPERIENCE

Corepeelers Technologies | Test Engineer – Master System Integrator | Jun 2025 – Jul 2025

- Performed system-level testing and validation across integrated control systems.
- Configured and tested networking protocols to verify communication between devices.
- Worked with cross-functional teams to investigate integration issues and resolve system conflicts.

Rinex Technology | Web Development Intern | Mar 2024 – May 2024

- Assisted in developing web pages and implementing responsive layouts using HTML, CSS, and JavaScript.
- Collaborated with a team to implement dynamic features for a project.

Oasis Infobyte | Web Development Intern | Dec 2023 – Jan 2024

- Created static web pages and user interfaces as part of internship assignments.
- Applied clean-coding practices and basic UI/UX principles in mini-projects.

PROJECTS

Manufacturing Equipment Output Prediction with Linear Regression | Python, Pandas, scikit-learn

- Developed a linear regression model to estimate manufacturing equipment output using parameters such as temperature and pressure.
- Used Pandas for data handling and scikit-learn to implement the model.

Accident Alert System with Geofencing Using STM32 | Embedded C/C++, STM32, Accelerometer, GPS

- Designed an accident-detection and vehicle-tracking prototype with geofencing-based alerts.
- Used accelerometer and GPS modules for impact detection and location tracking; displayed coordinates using an LCD and triggered alerts through a buzzer.

LEADERSHIP AND ACTIVITIES

Co-Sport Secretary | Student Council, Lokmanya Tilak College of Engineering | Sep 2025 – May 2026

Sport Head | Student Association, EXTC Department | May 2025 – May 2026

Co-Sport Head | Student Association, EXTC Department | May 2024 – May 2025
